The Keystone Healthcare Experience™

The Keystone Healthcare Experience is how we provide Emergency Medicine and Hospital Medicine physician staffing and management services that enhance patient and provider satisfaction, clinical outcomes, and financial success.

How We Work with Hospitals Like Yours

1

We Use Your Metrics to Design an EM & HM Program

2

We Prioritize Appropriate Status for Your Hospital's Observations & Admissions

3

We Share Risk in the Performance of Your Program

Ask About Keystone Telehealth™ Services!

Supplement your emergency medicine and hospital medicine departments with telehealth solutions.

Advanced virtual case management that ensures the correct status is assigned to every patient case, allowing for proper care and maximum revenue and reimbursement.

Tele-triage solutions that provide additional care capacity, allowing providers from affiliate hospitals to video chat with patients and deliver quality care remotely while controlling costs.

Virtual inpatient rounding that creates greater flexibility to manage multiple inpatient scenarios and also accommodates a variety of staffing patterns.

Keystone Connect™ direct-to-consumer telehealth and AI solutions to cater to the healthcare consumer experience and ensure high patient satisfaction.
